

## Pulse and Mobi Resources

### CPSPulse™

- New 140 character Essay Mode capability. 3-line LCD screen gives students real-time feedback and makes navigating self-paced assessments easy.
- Seamless integration with publishers content and question banks that come with all major textbooks makes assessments and lessons easy to create and deliver.  
[EXAMVIEW ASSESSMENT SUITE](#)
- Integration with the new e! Community™ puts even more peer-tested content and resources at your disposal.
- Question/Answer Types: Multiple Choice, Multiple Answer, Yes/No, True/False, Ranking, and advanced Numeric and Text Entry capabilities for greater flexibility in test writing and delivery, including the types frequently used in **math and science**.
- Operates in teacher-managed or student-managed modes.
- State-of-the-art Radio Frequency protocol provides easy and reliable plug-and-play connectivity.

### MOBI VIEW/KWIK®

- The e!Instruction Interwrite Mobi (Mobi) is a hand-held mobile interactive whiteboard that uses digitized and pen-input technology.
- Works in conjunction with Workspace software.
- Allows the user to control his/her laptop or computer by opening applications, editing files, annotating images, pictures, and/or Internet websites from anywhere in the classroom.
- Used with a projection device, the Mobi is an excellent tool for collaborative learning. Images and text can be projected on any wall, screen, or whiteboard.

## Resources

**[eInstruction website](#)**: Over 200 training videos available. You will find these three-minute videos to be focused, user-friendly video clips that explain all of the main features of CPS, Workspace, and ExamView. User can take advantage of the free tech support by phone or email for new eInstruction Tech Support.

- Phone: 888-333-4988
- e-mail: <http://www.einstruction.com/support/technical-support> for immediate assistance with your new eInstruction products.

Many publishers have provided digital content in ExamView format free with the purchase of your textbooks. At the ICT Website, click [Check to see if yours does](#) to find out if this digital content should have been included with the purchase of your textbooks.

**[Download](#)** the most current versions of eInstruction Software: Workspace, Workspace Content, CPS, and CPS Image Library
